

SKID-STEER BREAKER

Star Industries heavy-duty Breaker is designed to smash large concrete slabs, asphalt or other material including clay into manageable and easily transportable pieces. This makes it the must-have attachment for demolition work, mining, quarrying and a heap of other construction work.

- ➔ Ideal for construction, demolition, recycling, mining and quarrying
- ➔ Advanced tech for reduced operating costs
- ➔ Industry-leading 3-year warranty

PRODUCT OPTIONS

FEATURES

- ➔ Cushion Chamber isolates Breaker blows from the carrier and operator for less wear and tear and improved operator comfort.
- ➔ Easily move the Breaker from one machine to another with a simple pin and bushing change to get more return on your investment.
- ➔ Featuring only two moving parts and few seals, the Star Breaker gives you more 'up time' with simple in the field maintenance.
